Press On/Off Button Hardly !
or
The Developer Way :-
fastboot reboot

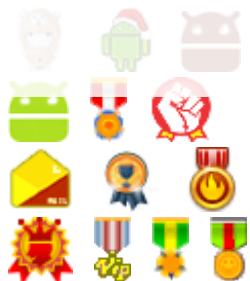

From Terminal provided you have ADB setup on your machine :)

5#

Please press and hold the power button till you see that it is off.

Or you can enter the following fastboot command provided you have platform tools(ADB) in your pc.

"Fastboot reboot"

Please advice if you are able to do it~

Same problem here.....
I am unable to switch my phone as error ocuring on the screen FASTBOOT, kindly advice and let us know the issue and solution.
your prompt action will be highly appreciated.
Regards,
Ravi
